**Re: Office of Engineering and Technology and Wireless Telecommunications Bureau  
Seek Information on Current Trends in LTE-U and LAA Technology, ET Docket  
No. 15-105**

Dear Ms. Dortch:

On October 1, 2015, Rebecca Thompson of Competitive Carrier Association (“CCA”), Steve Sharkey of T-Mobile, Dean Brenner and Mingxi Fan of Qualcomm, and Patrick Welsh of Verizon met with Julie Knapp, Ira Keltz, Walter Johnston, Mark Settle, and Rashmi Doshi (via telephone) of OET, as well as Brian Regan and Chris Helzer of WTB. The purpose of the meeting was to discuss the above-referenced proceeding.

During our meeting, we provided an overview of LTE-U and answered questions about the LTE-U Forum and T-Mobile’s response to the August 5 Knapp letter. We emphasized our longstanding support of unlicensed spectrum and our strong commitment to Wi-Fi. We explained that LTE-U is based on 3GPP’s current standards of Release 10/11/12 of LTE and fully complies with the FCC’s Part 15 regulations. We described how LTE-U’s robust etiquette protocols enable LTE-U to share spectrum fairly with Wi-Fi and other unlicensed users. And we discussed the extensive testing of LTE-U that show it will operate in the 5 GHz band without causing harmful interference.

Marlene H. Dortch
